CVEN 342

Website Assignment #18

TERMITE CONTROLS

- Use the International Residential Code for one and two family dwellings (website-“Handouts” section) and Dr. Roger E. Gold’s lecture on Termites and Construction (website-“Lecture#26) to review the construction plans for the residential construction that we have been using in the laboratory for the previous specification development and identify at least five areas with termite proofing and discuss why they do not comply with the IRC.
