QEA 2008 Summer Internship Program

About QEA

QEA is a national environmental consulting firm, currently employing 60 people in offices in Montvale, NJ; Syracuse, NY; Glens Falls, NY; and Austin, TX. We are committed to making a contribution to society through objective, rigorous, and technically superior evaluations of significant environmental problems. QEA works for a diverse array of clients including federal and state government agencies, private companies, utilities, and local government agencies.

QEA continually strives to maintain technological leadership in all areas of specialization; provide products and services that are of the highest possible value, quality and reliability; exercise irreproachable ethical standards in all aspects of our work; and foster a collegial work environment that encourages initiative, innovation, open communication and teamwork. Together, these values define and embody the philosophy of the company and people at QEA. You can find out more about us at www.qeallc.com.

2008 Internship Program

The QEA Internship Program offers advanced undergraduate and beginning graduate students an opportunity to gain hands-on experience in the environmental consulting field. This program enables students to work on specific projects under the direction of QEA’s professional staff in each of QEA’s locations. Projects areas include:

- contaminated sediment remediation,
- water quality and eutrophication analysis,
- TMDL development,
- ecological risk assessment,
- habitat assessment and restoration,
- coastal engineering,
- water resources, and
- groundwater assessment and modeling.

Project selection will be based on availability and student interest. Successful candidates will support projects using tools such as geographic information systems, interactive data languages, and database management software.
Remuneration

Interns will be paid a competitive salary based on experience and expertise. Housing and moving expenses are not available; interns must live within a reasonable distance from the office where the internship is located: Montvale, NJ; Liverpool, NY; Glens Falls, NY; or Austin, TX.

Eligibility

Successful applicants will have completed at least their junior year of study towards a Bachelors degree in one of the natural sciences or engineering disciplines. Masters degree candidates in these disciplines are also encouraged to apply. We are particularly interested in candidates who are interested in environmental engineering and environmental sciences including geology, biology, marine sciences and science fields.

To Apply

Applicants for the internship program should send a cover letter and resume to:

Ms. Christina Bouchard
Human Resources Coordinator
Quantitative Environmental Analysis, LLC
305 West Grand Avenue
Montvale, NJ 07645

201.930.9890 (t)
201.930.9805 (f)
cbouchard@qeallc.com

You may send your information by regular U.S. mail or by e-mail. In your cover letter, please specify QEA office location(s) of interest, and provide approximate dates of availability during May through September 2008.
