Date: 1 May 2012

To: Engineering Undergraduates

From: Professor K. F. Reinschmidt

Subject: Chevron Corporation Undergraduate Fellows in Project Management

Through the generosity of the Chevron Corporation, the College of Engineering is repeating a program that supports undergraduate education and research in Project Management. In summary, this program provides Chevron Corporation Fellowships to selected engineering undergraduates to learn more about Project Management by working with faculty members in this area.

Eligibility

To participate in this program as a Chevron Undergraduate Project Management Fellow, a student must:

- Have an interest in learning more about Project Management
- Enroll in the College of Engineering Undergraduate Certificate in Project Management Program. See the Certificate Website for more information: http://essap.tamu.edu/project-mgmt.htm
- Have completed at least 60 hours of undergraduate courses
- Have completed the sophomore year in the engineering curriculum in some Department in the College of Engineering
- Have a minimum cumulative GPR of 3.00
- Plan to graduate no sooner than December 2012
- Be a U.S. citizen or permanent resident

Award

Each selected participant will receive a Fellowship in the amount of $4000 for one full semester. Fellowships will be tenable in the fall semester 2012 and may be extended at the discretion of the undersigned.

Activities

During the semester, participants will have the opportunity to work with faculty members and/or graduate students in support of the educational process for courses dealing with Project Management and/or in support of ongoing research in Project Management.
Deliverables

A Chevron Corporation Undergraduate Project Management Fellow may assist some faculty member in some project management course or may assist a faculty member or graduate student in some research related to project management. In either case, at the end of the semester Chevron Fellows will generate and submit to the undersigned an original report, paper, or case study in project management, suitable for use in an undergraduate project management course.

If you are an undergraduate engineering student in any engineering discipline who might be interested in this Fellowship program, send an e-mail to kreinschmidt@civil.tamu.edu as soon as possible to obtain an application form for summer or fall 2012. If you have any questions, contact the undersigned.

The Chevron Corporation is supporting the increased awareness of Project Management on the part of engineering undergraduates in all disciplines and majors, and if you are interested we would like to hear from you.
