## Biosketch

---

Dr. Mary Beth Hueste is a Professor in the Zachry Department of Civil and Environmental Engineering at Texas A&M University. She joined Texas A&M University in 1998 where she is a member of the structural engineering faculty. She has served as Associate Department Head for Undergraduate Programs since August 2018. Dr. Hueste is the Major Highway Structures Program Manager and Acting Division Head for the Construction, Geotechnical and Structures (CGS) Division within the Texas A&M Transportation Institute. She is a Fellow of the American Concrete Institute (ACI), and is a Voting Member of ACI Committee 318 (Building Code), ACI Technical Activities Committee (TAC), ACI Subcommittee 318-E (Section and Member Strength), ACI Subcommittee 318-J (Joints and Connections), ACI-ASCE Committee 352 (Joints and Connections in Monolithic Concrete Structures), ACI Subcommittee 369-C (Seismic Repair and Rehabilitation – Frames), and ACI Committee 374 (Performance Based Seismic Design of Concrete Buildings). She served as Chair of Committee 352 from 2009-2016. Dr. Hueste conducts research focused on earthquake resistant design and resilience of concrete building structures, performance-based seismic design, design and evaluation of prestressed concrete bridge structures, and assessment of aging and historic infrastructure. She has authored or co-authored over 100 technical papers and reports. Dr. Hueste teaches undergraduate and graduate courses in structural engineering, including statics, structural concrete design, structural steel design, prestressed concrete design, and advanced reinforced concrete design; along with the undergraduate structural engineering capstone design course and the general civil engineering undergraduate capstone design course.

## Professional Preparation and Registration

---

### *Education*

Ph.D. Civil Engineering, University of Michigan, 1997  
M.S. Civil Engineering, University of Kansas, 1993  
B.S. Civil Engineering, North Dakota State University, 1988, With Honor

### *Professional Engineering Registration*

Kansas License Number 12774, Issued February 1993  
Texas License Number 89660, Issued March 2002

## Professional Experience

---

### *Academic*

2018 – present Associate Department Head for Undergraduate Programs, Zachry Department of Civil and Environmental Engineering, Texas A&M University  
2012 – present Professor, Zachry Department of Civil and Environmental Engineering, Texas A&M University  
2010 – present Acting Division Head; Construction, Geotechnical and Structures Division; Texas A&M Transportation Institute (TTI), Texas A&M University

- 2010 – 2013 Division Head; Construction, Geotechnical and Structural Engineering Division; Zachry Department of Civil Engineering, Texas A&M University
- 2005 – present Program Manager, Major Highway Structures, TTI, Texas A&M University
- 2005 – 2012 Associate Professor, Department of Civil Engineering, Texas A&M University
- 2005 – 2009 Assistant Division Head; Construction, Geotechnical and Structural Engineering Division; Department of Civil Engineering, Texas A&M University
- 1998 – 2005 Assistant Professor, Department of Civil Engineering, Texas A&M University
- 1994 – 1997 Graduate Assistant, Dept. of Civil & Environmental Engineering, Univ. of Michigan

*Industry*

- 1988 – 1993 Structural Engineer, Black & Veatch, Overland Park, Kansas
- Summer 1987 Civil Engineering Technician, North Dakota Soil Conservation Service, Bismarck

**Courses Taught**

---

*Undergraduate*

- ENGR 111 – Foundations of Engineering I
- CVEN 221 – Engineering Mechanics: Statics
- CVEN 400 – Design Problems in Civil Engineering (General Civil Engin. Capstone Design)
- CVEN 444 – Structural Concrete Design
- CVEN 446 – Structural Steel Design
- CVEN 483 – Analysis and Design of Structures (Structural Engineering Capstone Design)

*Graduate*

- CVEN 621 – Advanced Reinforced Concrete Design
- CVEN 671 – Behavior and Design of Prestressed Concrete Structures
- CVEN 681 – Seminar in Construction, Geotechnical and Structural Engineering

**Honors and Awards**

---

- 2019 Engineering Genesis (EG) Award, for one of the top grant awards for FY 19: “Utilization of UHPC Bridge Superstructures in Texas,” PI: Mary Beth Hueste and Co-PIs: Stefan Hurlbaeus, John Mander and Anol Mukhopadhyay, Texas Engineering Experiment Station (TEES), Texas A&M University
- 2018 *ACES+ Distinguished Lectureship*, Case Western Reserve University
- 2018 *TTI Herbert H. Richardson Team Award*, presented to The Center for Infrastructure Renewal Moving the Giants Team
- 2018 *Service Impact Award*, Zachry Department of Civil Engineering, Texas A&M University
- 2016 *ACI Delmar L. Bloem Distinguished Service Award*, 2016, American Concrete Institute (ACI), “for outstanding leadership of Committee 352, Joints and Connections in Monolithic Concrete Structures—Joint ACI-ASCE”
- 2014 *Preservation Achievement Award*, Board of Historic Fort Worth, 2014, recognizing the Tarrant County bridge preservation program created by Texas A&M Transportation Institute and Texas Department of Transportation, PI – Mary Beth Hueste
- 2014 *TTI/Trinity Senior Researcher Award*, Texas A&M Transportation Institute
- 2013 *Leadership Impact Award*, Zachry Department of Civil Engineering, Texas A&M University
- 2011 *Fellow of the Institute*, American Concrete Institute
- 2011 *Williams Brothers Construction Company Fellow*, College of Engineering, Texas A&M University

- 2007 *E.B. Snead '25 Development Professorship II*, Zachry Department of Civil Engineering, Texas A&M University, 2007–2012
- 2004 *Ruth and William Neely '52/Dow Chemical Faculty Fellow*, 2004-2005, for outstanding performance and overall contributions to the Texas A&M Engineering Program
- 2003 *Mid-America Earthquake Center Award of Recognition*, “for leadership in successfully implementing the Mid-America Earthquake Center’s first Consequence-Based Engineering Institute”
- 2001 *Zachry Award for Excellence in Teaching*, 2001–2002, established by the Zachry Foundation and awarded through the TAMU Department of Civil Engineering
- 1994 – *Graduate Traineeship in Infrastructure Facilities*, National Science Foundation through
- 1997 the University of Michigan Department of Civil & Environmental Engineering

## Research Projects

Reverse chronological order

<i>Utilization of UHPC Bridge Superstructures in Texas</i>			
TxDOT	PI, Co-PIs – S. Hurlebaus, J. Mander, A. Mukhopadhyay	09/18-02/22	\$1,282,823
<i>Development of a Strategy to Address Load Posted Bridges through Reduction in Uncertainty in Load Ratings</i>			
TxDOT	PI, Co-PIs – S. Hurlebaus, J. Mander, S. Paal	09/17-10/19	\$444,344
<i>Condition Assessment of Bridge Post-Tensioning and Stay Cable Systems Using NDE Methods</i>			
NCHRP	Co-PI, PI – S. Hurlebaus	11/12 – 8/16	\$650,000
<i>Spread Slab Beams</i>			
TxDOT	PI, Co-PI – J. Mander	9/11 – 8/14	\$554,400
<i>Historic Bridges of Tarrant County</i>			
TxDOT	PI, Co-PIs – S. Hurlebaus, I. Damnjanovic	9/11 – 8/13	\$150,000
<i>Continuous Prestressed Concrete Girder Bridges</i>			
TxDOT	PI, Co-PI – J. Mander	9/10 – 8/14	\$891,976
<i>Vulnerability Functions</i>			
NSF, Mid-America Earthquake Center	PI, Co-PI – P. Gardoni	10/05 – 8/08	\$121,629*
<i>Self-Consolidating Concrete for Precast Structural Applications</i>			
TxDOT	Co-PI, PI – D. Trejo	9/04 – 12/07	\$491,536
<i>Effects of Voids in Grouted, Post-Tensioned Concrete Bridge Construction</i>			
TxDOT	Co-PI, PI – D. Trejo	9/03 – 8/08	\$1,030,772
<i>Impact of LRFD Specifications on the Design of Texas Bridges</i>			
TxDOT	PI, Co-PI – P. Keating	9/03 – 8/05	\$200,901
<i>Structure Retrofit Strategies</i>			
NSF, Mid-America Earthquake Center	PI	9/02 – 9/05	\$254,700*
<i>Consequence Based Engineering (CBE) Institute</i>			
NSF, Mid-America Earthquake Center	PI, Co-PI – J. Bracci	9/02 – 9/05	\$41,200*

<i>Assessment of Seismic Risk for Sub-Sea Production Systems in the Gulf of Mexico</i>			
MMS through OTRC	Co-PI; PI – J. Bracci	9/01 – 8/03	\$100,000
<i>Allowable Stresses and Resistance Factors for High Strength Concrete</i>			
TxDOT	PI; Co-PIs – D. Trejo, D. Cline	1/00 – 05/03	\$313,627
<i>Study of Flexural Cracking in Cantilever Standard Design Interior Bent Caps</i>			
TxDOT	Co-PI; PI – J. Bracci	9/98 – 8/00	\$206,422
<i>Performance of Rehabilitated Floor and Roof Diaphragms</i>			
NSF, Mid-America Earthquake Center	Co-PI; PI – J. Bracci	4/98 – 12/01	\$265,000*
Total			\$6,999,330
* including TAMU match			
MMS = Minerals Management Service, NCHRP = National Cooperative Highway Research Program, NSF = National Science Foundation, OTRC = Offshore Technology Research Center, TxDOT = Texas Department of Transportation			

## Publications

### **National Webinars**

---

1. +Hurlebaus, S. and +M.D. Hueste (2017), "TRB Webinar: Condition Assessment of Bridge Post-Tensioning and Stay Cable Systems using NDE Methods," October 10, 299 attendees (estimated), 180 site logins.

### **Professional Affiliations**

---

- American Concrete Institute (ACI), Member 1995-present, Fellow of the Institute, 2011-present.
- American Society of Civil Engineers (ASCE), Member, 1993-present
- Earthquake Engineering Research Institute (EERI), 1995-present
- The *fib* (International Federation for Structural Concrete) Working Party 2.2.3 focused on shear, punching, and torsion in concrete structures, Friend, 2015-present.
- Historic Bridge Alliance, Member, 2011 – present
- Structural Engineers Association of Texas (SEAoT), Structural Engineering Educator Member, 1998–present

### **Professional Service**

---

- ACI Technical Activities Committee (TAC), Voting Member, 2019 – present
- ACI Committee 318 (Building Code), Voting Member, 2019 – present
- ACI Subcommittee 318-E (Section and Member Strength), Voting Member, 2019 – present
- ACI Subcommittee 318-J (Joints and Connections), Voting Member, 2014 – present
- ACI-ASCE Committee 352 (Joints and Connections in Monolithic Concrete Structures); Chair, March 2009-2016; Voting Member, 2004 – present
- ACI-ASCE Committee 352-Task Group 2 (TG2) (Beam-Column Joints & Connections), Chair, 2015-2016; Member 2015 – present
- ACI Subcommittee 369-C (Seismic Repair and Rehabilitation – Frames), Voting Member, 2017 – present

- ACI Committee 374 (Performance-Based Seismic Design of Concrete Buildings), Voting Member, 1999 – present
- ACI Committee 375 (Performance-Based Design of Concrete Buildings for Wind Loads), Associate Member, 2000 – present
- ACI Board of Nominations, 2013 and 2015
- ACI Committee on Awards for Papers, Voting Member, 2015
- ACI Chester Paul Siess Award for Excellence in Structural Research, Voting Member, 2014; Chair, 2015
- ACI Education Activities Committee (EAC), Voting Member, 2012 – 2015
- ACI Reinforced Concrete Research Council, Secretary, 1999 – 2001
- ASCE, Member, 2009 Structures Congress Steering Committee, 2008 – 2009
- EERI, Member, Ad Hoc Committee on Seismic Safety of Schools, 2010 – 2016
- *Engineering Structures*, Member, Editorial Board, 2008 – present
- NSF Mid-America Earthquake Center Leadership Team, TAMU Representative, 2001 – 2008
- NSF Site Visit Team, 2017
- SEAoT - Houston/Gulf Coast Chapter, Student Affairs Committee, Member, 1998 – 2001
- Texas Department of Transportation Research Management Committee 5, Technical Activities Panel, Member, 2003 – 2012, 2016 – present.
- Transportation Research Board, Concrete Bridge Committee (AFF30), Friend, 2017 – present.

## **University Service**

---

### *University*

- Women's Faculty Network Executive Committee, Texas A&M University, College of Engineering Representative, 2010 – 2014 (Chair of Awards Committee, 2013 – 2014)
- Women's Leadership Forum, Texas A&M University, Member, Planning Committee, 2013

### *College*

- Member, College of Engineering Tenure and Promotion Committee, 2017 – 2018
- Member, College of Engineering Honors and Awards Committee, 2015 – 2016
- Member, Architectural Engineering planning committee, 2013 – 2015
- Member, Center for Infrastructure Renewal (CIR) Planning Committee, 2012 – 2016

### *Department*

- Coordinator, Civil Engineering Women Student Mentoring Group, Faculty Steering Committee, 2004 – 2016
- Member, Promotion and Tenure Committee, 2005 – 2018
- Peer Review of Teaching Committees for individual assistant professors; Chair – 2005, 2006, 2007, 2008, 2009; Member – 2008, 2010, 2013, 2015, 2017, 2018
- Member, Structures Faculty Search Committee, 2016 – 2017
- Member, Structures Faculty Search Committee, 2015 – 2016
- Member, CE Faculty Review Criteria Committee, 2016
- Member, CE/TTI Collaboration Team, 2013 – 2015

- Graduate Teaching Fellow Mentor; Lorena Garcia Cucalon, 2014 – 2015; Parisa Khodabakhshi, 2015 – 2016; Husain Abbas, 2017 – present; Graduate Teaching Academy organized by Center for Teaching Excellence, Texas A&M University Member, CE Strategic Planning Committee, 2013
- Chair, Sustainability Faculty Search Committee, 2011
- Chair, Search Committee for Faculty Member in Structural Engineering, 2011 – 2012
- Member, Civil Engineering Department Head Search Committee, 2009 – 2010
- Chair, Search Committee for Faculty Member in Construction Engineering / Design and Construction Integration, 2008 – 2009
- Member, Search Committee for Faculty Member in Construction Engineering and Management, 2005 – 2006
- Chair, Task Force on the Graduate Experience, 2005 – 2006
- Graduate Advisor, Structural Engineering Graduate Program, 2003 – 2004

#### *Texas A&M Transportation Institute (TTI)*

- Member, TTI Leadership Team, 2014 – present
- Member, TTI Compliance Committee, 2016 – 2019
- Co-Chair, Structures and Hydraulics Session, TxDOT Annual Short Course, Texas A&M University, 2016, 2017, 2018

### **Recent International Activities**

---

#### *Ongoing*

- Continuing engagement in American Concrete Institute (ACI) technical committees, which include international membership.

#### *2019*

- Presented “Bridge Inspection and Inventory Management – Overview of US Practice,” US-Korea Seminar on Aging Infrastructure Management with Korean Institute of Construction Technology (KICT), Seoul, Korea, June 3, 2019.
- Presented “Lateral Load Effects on Slab-Column Connections: Synthesis of Laboratory Test Data and Implications for Analysis and Design,” Seoul National University, Seoul, Korea, June 4, 2019.
- Participated in faculty review for capstone design project presentations given by 10 undergraduate student teams in architectural engineering, Seoul National University, Seoul, Korea, June 4, 2019.

#### *2017*

- Presented “Field Testing and Computational Model Verification for Spread Slab Beam Bridges,” 39<sup>th</sup> IABSE Symposium – Engineering the Future, Vancouver, Canada.
- Attended Joint *fib*-European Code (EC) meeting for Working Party (WP) 2.2.3 focused on shear, punching, and torsion in concrete structures; held in Aachen, Germany in August 2017.
- Visited Technical University of Munich, Munich, Germany, to discuss future collaborations, August 2017.
- ACI Task Group on Vietnam, ACI Detroit Convention, March 2017
- Presented “Review of Laboratory Test Data for Combined Lateral and Gravity Shear Demands on Interior Slab-Column Connections,” 16th World Conference on Earthquake Engineering (16WCEE), January, Santiago, Chile. Met with faculty from Pontificia Universidad Catolica de Chile.

## 2016

- Attended Joint *fib*-European Code (EC) meeting for Working Party (WP) 2.2.3 focused on shear, punching, and torsion in concrete structures; held in Copenhagen, Denmark in January 2016 (presented “Slab-column Connection Design under Seismic Action: Research and US Practice”).
- EPFL, Lausanne, Switzerland – served as external member of PhD thesis committee, provided a seminar presentation “Interior Slab-Column Connections under Earthquake Loading: Test Data, Observations, and Design Implications”

## 2015

- Attended Joint *fib*-European Code (EC) meeting for Working Party (WP) 2.2.3 focused on shear, punching, and torsion in concrete structures; held in Florence, Italy in March 2015 (presented “Overview of ACI-ASCE Committee 352 Joints and Connections in Monolithic Concrete Structures”).
- Presented “Design and Behavior of Spread Slab Beam Bridges,” 16<sup>th</sup> European Bridge Conference, Edinburgh, Scotland, June 2015.
- *Cambridge University*, Cambridge, England, June 26, 2015. Visited with faculty and presented “Prestressed Concrete Bridges – Solutions for Varying Span Lengths.”
- *Imperial College*, London, England, June 29, 2015. Visited with faculty and provided an informal presentation of recent research on spliced prestressed bridge girders.
- *Vietnam Education Foundation (VEF) Annual Interview Mission*, Team Member, July 26 – August 6, 2015. The objective of the VEF mission was to select Vietnamese students for graduate and post-graduate study in STEMM fields (STEM + Medicine) at universities in the United States. The mission included six days of interviews (three days in Hanoi and three days in Ho Chi Minh City). In addition, there were opportunities to visit universities in Vietnam and to meet the U.S. Ambassador to Vietnam.
- *National University of Civil Engineering*, Hanoi, Vietnam, July 30, 2015. Visited with faculty and presented “Prestressed Concrete Bridges – Solutions for Varying Span Lengths.”
- *Vietnam Institute for Building Science and Technology (IBST)*, Hanoi, Vietnam, July 30, 2015. Visited with directors and researchers, discussed Vietnamese interest in adoption of U.S. codes in Vietnam, and presented “Seismic Fragility Analysis and Loss Estimation for Concrete Structures.”
- *Ton Duc Thang University*, Ho Chi Minh City, Vietnam, August 6, 2015. Visited with faculty and presented “Investigation of Short- and Medium-Span Prestressed Concrete Bridge Design Solutions.”
- Visited with Vice Dean of Faculty of Transportation Engineering, *Ho Chi Minh City University of Transport*, Ho Chi Minh City, Vietnam, August 6, 2015. Provided an informal presentation of recent research on spread slab beam bridges and discussed potential applications in Vietnam.
- *Seoul National University*, Seoul, South Korea, August 7, 2015. Visited with faculty and presented “Investigation of Short- and Medium-Span Prestressed Concrete Bridge Design Solutions.”
- Attended Joint *fib*-European Code (EC) meeting for Working Party (WP) 2.2.3 focused on shear, punching, and torsion in concrete structures; held in Stockholm, Sweden in September 2015.

## **Diversity Initiatives**

---

- Luncheon Discussion with College of Engineering Women Faculty, Case Western Reserve University, October 2018
- Roadmap Workshop for a Successful Academic Career 2017, Panel Member for Session, “The Many Paths to Success,” Texas A&M University, March 7, 2017
- 2013 Women’s Leadership Forum, Texas A&M University, planning committee member
- Department Mini-Grant Subcommittee, ADVANCE Center for Women Faculty, Texas A&M University, Sponsored by the National Science Foundation, 2011–2012
- Women’s Faculty Network Executive Committee, Texas A&M University, College of Engineering Representative, 2010–2014 (Chair of Awards Committee, 2013–2014)
- Texas Transportation Institute (TTI) Diversity Council, member, 2010–2012
- Civil Engineering Women Student Mentoring Group, Faculty Steering Committee and Founding Member, Texas A&M University, 2004–present
- Diversity Coordinator for Mid-America Earthquake Center (an NSF-sponsored Engineering Research Center headquartered at the University of Illinois), 2004–2008

## **Mentored Students, Postgraduate Scholars, and Graduate Advisors**

---

*Doctoral Students (3 current, 11 completed)*

### Chair (or Primary Co-Chair) of Committee

1. Hyeonki Hong, *Ultra High Performance Concrete for Bridge Superstructures*, in progress.
2. Amreen Fatima, *Ultra High Performance Concrete for Bridge Superstructures*, in progress.
3. Husain Abbas Aldahlki, *Seismic Performance of Reinforced Concrete Tall Buildings with Advanced Materials*, expected December 2019.
4. Yan Zhou, *Seismic Performance Assessment and Nonlinear Modeling Parameters for Slab-column Connections*, August 2019.
5. Tevfik Terzioglu, Co-Chair: Dr. J. Mander, *Behavior and Design of Spread Prestressed Concrete Slab Beam Bridges*, December 2015 [Post-Doctoral Research Associate with the Texas A&M Transportation Institute].
6. Mahmood Etehad, Co-Chair: Dr. S. Hurlbaas, *Analysis of Particle Size and Interface Effects on the Strength and Ductility of Advanced High Strength Steels*, May 2013 [Currently pursuing a PhD in Mathematics at Texas A&M University].
7. Carol Johnson, Ph.D., Co-Chair: Dr. L. Beason, *Enhanced Blast Resistance using Engineered Structural Retrofit Systems*, December 2013 [Research Structural Engineer and Blast Load Simulator Facility Director at U.S. Army Engineer Research and Development Center, Vicksburg, MS].
8. Jong-Wha Bai, Ph.D., Co-Chair: Dr. P. Gardoni, *Seismic Fragility and Loss Estimation for Concrete Structures*, December 2011, recipient of 2006-2007 National PERISHIP Award (Dissertation Fellowships in Hazards, Risk, and Disasters), awarded by the Natural Hazards Center at the University of Colorado at Boulder and the Public Entity Risk Institute with support from the National Science Foundation and Swiss Re, [currently Department Chair and Associate Professor, Department of Civil Engineering, California Baptist University (CBU), Riverside, California, joined faculty in 2010].
9. Young-Hoon Kim, Ph.D., Co-Chair: Dr. D. Trejo, *Mechanical and Time-Dependent Properties of Self-Consolidating Concrete for Precast Structural Applications*, December 2008 [currently Associate Professor, School of Civil and Construction Engineering, University of Louisville, Louisville, Kentucky, joined faculty in 2011].

#### Co-Chair of Committee

10. Reza Baie, Chair: Dr. J. Mander, *In-Span Splicing for Continuous Prestressed Concrete Bridges*, May 2017 [practicing engineer with Modjeski and Masters, Denver, Colorado].
11. Dongqi Jiang, Chair: Dr. J. Mander, *Experiments, Analysis and Design Models for Slab on Prestressed Concrete Girder Bridge Structures*, December 2015 [Assistant Professor, Nanjing University of Science and Technology, January 2018 – present; Research Fellow, Centre for Offshore Research & Engineering (CORE), Department of Civil & Environmental Engineering, National University of Singapore, 2016-2017].
12. Ardeshir Tehrani, Chair: Dr. S. Hurlebaus, *Microstructure-Based Computational Modeling of Mechanical Behavior of Polymer Micro/Nano Composites*, December 2013 [practicing engineer in Houston, Texas].
13. Radhakrishna Pillai, Ph.D., *Electrochemical Characterization and Probabilistic Capacity Modeling of Post-Tensioning Strands and Structural Reliability Assessment of Post-tensioned Concrete Bridges*, Co-Chair: Dr. D. Trejo, May 2009 [Assistant Professor, Civil Engineering Department, Indian Institute of Technology Madras, India].
14. David Peralta-Gonzalez, Ph.D., *Seismic Performance of Rehabilitated Floor and Roof Diaphragms*, Co-Chair: Dr. J. Bracci, May 2003 [practicing engineer in San Antonio, Texas].

*Masters of Science Students (4 current, 20 completed)*

#### Chair (or Primary Co-Chair) of Committee

1. Brittni Cooper, *Durability and Service Life Predictions for Pretensioned Bridge Girders Utilizing Ultra High Performance Concrete*, expected August 2020.
2. Jay Shah, *Shrinkage Properties of Ultra High Performance Concrete for Pretensioned Bridge Girder Applications*, expected August 2020.
3. Matthew Stieglitz, M.S., *Development of a Strategy to Address Load Posted Steel Multi-girder Bridges through Reduction in Uncertainty in Load Ratings*, expected December 2019.
4. Nuzhat Kabir, M.S., *Investigation of the Load Rating Process for Concrete Bridges to Reduce the Uncertainty in Load Posting*, expected December 2019.
5. Jennifer Michelle Prouty, M.S., Co-Chair: Dr. S. Hurlebaus, *Sustainable and Durable Infrastructure with Advanced Construction Materials*, August 2014.
6. Joel Petersen-Gauthier, M.S., Co-Chair: Dr. J. Mander, *Application of the Grillage Methodology to Determine Load Distribution Factors for Spread Slab Beam Bridges*, August 2013.
7. Eric Puls, M.S., *A Framework for Historic Bridge Preservation*, August 2013.
8. Akshay Parchure, M.S., *Design of Continuous Prestressed Concrete Spliced Girder Bridges*, August 2013.
9. Laura Ortiz, M.S. (2011 NSF Graduate Fellowship recipient), *Rehabilitation Techniques and Assessment of a Historic Reinforced Concrete Variable Depth Girder Bridge*, May 2013.
10. Ajay Shastri, M.S., *Computational Modeling of Conventionally Reinforced Coupling Beams*, December 2010.
11. Erin Kueht, M.S. (2005 NSF Graduate Fellowship recipient), *Impact of Seismic Code Provisions in the Central U.S.: a Performance Evaluation of a Reinforced Concrete Building*, August 2007.
12. Safiuddin Adil Mohammed, M.S., *Impact of AASHTO LRFD Bridge Design Specifications on the Design of Type C and AASHTO Type IV Girder Bridges*, December 2005.
13. Jong-Wha Bai, M.S., *Seismic Fragility and Retrofitting for a Reinforced Concrete Flat-Slab Structure*, May 2004.

14. Mohsin Adnan, M.S., Co-Chair: Dr. P. Keating, *Impact of AASHTO LRFD Specifications on the Design of Precast, Pretensioned U-Beam Bridges*, December 2005.
15. Gladys Cuadros, M.S., *Evaluation of High Strength Concrete Prestressed Bridge Girder Design*, May 2003.
16. Fayez Moutassem, M.S., *Evaluation of Allowable Stresses For High Strength Concrete Prestressed Bridge Girders*, May 2003.
17. Praveen Chompreda, M.S., Co-Chair: Dr. D. Trejo, *Evaluation of Mechanical Properties of High Strength Concrete for Prestressed Concrete Bridge Design*, December 2001.
18. Joel Barron, M.S., *Performance Based Evaluation of the Seismic Resistance of Structures with Concrete Diaphragms*, May 2001.
19. Jennifer Buchanan, M.S., *Effect of Liquefaction on the Behavior of a Retrofitted Pile Foundation Subjected to Cyclic Loading*, August 2000.
20. Laila Jimenez, M.S., *Seismic Rehabilitation of a Reinforced Concrete Flat-Slab Structure*, December 1999.

#### Co-Chair of Committee

1. Casey Jones, M.S., Chair: Dr. S. Hurlebaus, *Non-destructive Evaluation of Stay Cable Bridge Systems*, December 2015.
2. Katlyn McCoy, M.S., Chair: Dr. S. Hurlebaus, *Non-destructive Evaluation of Cable and External Post-tensioning Systems*, December 2014.
3. Laura Brown, M.S., Primary Co-Chair: Dr. J. Bracci, *Assessment of Seismic Risk for Subsea Production Systems in the Gulf of Mexico*, August 2003.
4. Amber Grubbs, M.S., Primary Co-Chair: Dr. J. Bracci, *Seismic Rehabilitation of Wood Diaphragms in Unreinforced Masonry Buildings*, December 2002.

#### *Master of Engineering with Report (8 completed)*

1. Anagha Parkar, M.E., Co-Chair: Dr. J. Mander, *Continuous Prestressed Concrete Bridges*, August 2013.
2. Muhammad Usman, M.E., *Seismic Design of Concrete Structures - A Comparison of US Approach with New Seismic Provisions of Pakistan Building Code After Disaster of 2005 Kashmir Earthquake*, May 2009.
3. Ahsanuddin Kamran Syed, M.E., *Design of Tilt-Up Concrete Structures*, May 2009.
4. Najla Issaq, M.E., *Review of Slab-Column Connection Test Data and Literature Review on Seismic Design Considerations for School Buildings*, December 2008.
5. Refik Sahin, M.E., *Investigation of Building Damage in Turkey Following the Major Kocaeli and Duzce Earthquakes of 1999*, December 2001.
6. Vincent Fratinardo, M.E., *Comparative Study of Methods Used to Model Pile Group Foundations Subjected to Dynamic Loading*, December 2000.
7. Samuel Young Gameros, M.E., *Influence of Retrofit Micro-Piles on Dynamic Behavior of Bridge Pile Foundations*, May 2000.
8. Rebecca Fischer, M.E., *Three-Dimensional Dynamic Analysis of a Reinforced Concrete Building Damaged During the Northridge Earthquake*, December 1999.

#### *Master of Engineering without Report (1 completed)*

1. Venu Pokuri, M.E., Co-Chair: Dr. S. Hurlebaus, *Historic Suspension Bridges*, December 2018.

*Undergraduate Student Research*

- Sponsored 22 undergraduate students to assist with various aspects of research at TAMU.

*Postgraduate Scholars*

- Tefvik Terzioglu, Texas A&M University, 2017 – present
- Hakan N. Atahan, Istanbul Technical University (with D. Trejo)
- Haijuan Duan, Shanghai Jiatong University

*Graduate Advisors*

- MS: Professor Steven L. McCabe, University of Kansas
- PhD: Professor James K. Wight, University of Michigan
